

XIII International Rice Conference for Latin America and the Caribbean

Cameron Pittelkow
Keynote Speaker

Topic:

**"Meeting sustainable intensification
goals in agriculture"**

Agronomist. Ph.D. in Agronomy

Dr. Pittelkow's research program is focused on integrating agronomic and environmental goals in crop production, particularly how to maintain or increase yields while reducing nitrogen, carbon, water, and energy footprints in agriculture. His work on sustainability combines field-scale experiments, data synthesis, crop modeling, and remote sensing through collaborative partnerships in the U.S. Midwest and internationally. He started as an Assistant Professor of Agronomy at the University of Illinois in 2014.
